LOOKING FORWARD

We are now offering our filtering solution across Canada. Currently we have customers in British Columbia, Alberta and Ontario. While these three areas will be our main focus for the near future, we do have plans to offer our service in other locations as well.

If you have relatives or friends living in these or other areas, refer them to Caylix and you can receive one-month free of Internet service, see our *Improve Caylix* Campaign article below.

On other fronts, we now have news that our

partner, Kliksafe, has launched their Cell Phone Internet filter. This is great news for us, since this give us the opportunity to explore similar areas once our residential and business base is large enough.

With wireless connections rapidly becoming the standard for non-ADSL/Cable areas, Caylix is committed to providing you with a wireless option as well. Stay tuned.

We look forward to continually improving your Internet experience.

MOVING – NEW ADDRESS

In August Caylix Internet Solutions moved to a new location. The new address is:

6695 Banford Road
Chilliwack, BC
V2R 4S3

Please be advised that this is the new ad-

dress for all mail, payments and other regular deliveries. Our phone numbers and email addresses have not changed.

We now also have a TOLL FREE phone number 1+ (877) 792-6563.

IMPROVE CAYLIX BY REFERRING A FREIND

One of the most efficient ways to enhance Caylix is to add more users. Each user's feedback only serves as a constant commitment and initiative for continual improvement. As part of this continued effort, we are pleased to launch our "refer-a-friend" program. For every person that signs up and mentions your name as a referral, depending on their service level, you can get up to one-month free of Internet service.

The value of their connection package will be deducted from your next invoice or pre-authorized payment.

Example: If you have ADSL—High Speed and you convince your friend to sign up for an ADSL connection (if available), you will receive a \$39.95 credit on your next month's service.

You can refer as many people as you wish.

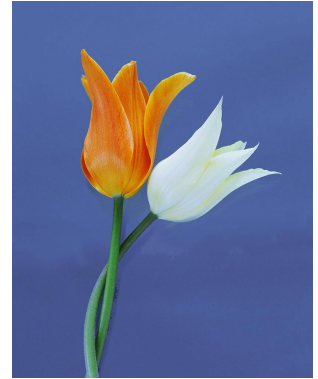

INCREASED RATES & ADDITIONAL FEATURES

In order to stay in line with rising communication costs and to remain competitive in our markets, Caylix will be raising connection rates as of January 01, 2006. Until then you can enjoy your lower than industry average rates. Email & Basic dialup accounts will go up by \$3.00/mth, and all

other connections will increase \$2.00/mth. However, as we continue to improve, these increases remain a great return on your investment.

Also included in this rate increase, we will be launching our reporting and ac-

countability program. You will then be able to log onto our website and by simply entering your username and password you can quickly see all the sites you have visited as well as many other very useful statistics. Please inform us if you wish to enable this option on your account.

FILTERING (ANOTHER WAY TO IMPROVE CAYLIX)

You can improve Caylix.

The best filter on the market is our *Safe* option. This filter consists of only pre-approved sites that have all been screened as per Caylix filtering standards. This "safe Internet" is constantly expanding, and if you wish to join, please let us know.

The second and most popular filter is our *Flexible* package. It allows you to search all the pre-screened sites, using our

Caylix Search tool, but it also gives you access to the entire Internet with millions of sites blocked and filtered out.

To do your part in improving our filter, please do the following.

If a Page is Blocked, and you feel it does pass our filtering criteria, please submit it immediately and if it is approved, it will be made available shortly. Not only do you benefit from it, but so do all other

Caylix customers and over 10,000 Kliksafe users.

If you see an Inappropriate Page that should be filtered out, please report it immediately using our *Report a Site* tool at www.caylix.com. The site will then be made unavailable in a matter of hours.

Once again, you are improving our filter each time you make a submission, and we all benefit from it.

Thanks for doing your part.

"You can improve Caylix each time you come across a webpage that is blocked or if you see an inappropriate website."

SUPPORT & COMPUTER REPAIR SERVICE

If you are experiencing any problems whatsoever with your Caylix connection or any of our other services, you can contact us via three methods. Please make use of these.

For support please email us at support@caylix.com or

phone us TOLL FREE at 1-877-792-6563, alternatively you can also fax your request to 1-866-795-3547.

As an added benefit, Caylix, or our local partner, also offers PC support, so if you are experiencing problems

with your computer, please give us a call and we would be more than happy to send a technician out to service it for you.
